## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments, see pages 4 and 5, filed on November 5, 2008, with respect to claims 9-17 have been fully considered and are persuasive. The 35 U.S.C. § 103(a) rejection(s) of claims 9-17 have been withdrawn.

### ***Allowable Subject Matter***

2. Claims 9-17 are allowed.

### ***Reasons for Allowance***

3. The following is an examiner's statement of reasons for allowance.

The prior art of record, taken alone or in combination, does not teaches the construction of a wind energy unit connected to an electrical 3-phase network as described on and including all the disclosed limitations of independent claim 9, comprising:

a generator regulation device that regulates the generator having a first and a second regulation unit that each operate on a rotor-winding side converter;

wherein a network voltage analyzer connects to the electrical 3-phase AC network and determines whether a network fault has occurred if the network voltage sinor representation deviates from a predetermined set interval and if a network fault has occurred the first regulation unit is assigned to regulate a non-faulty 3-phase AC network and the second regulation unit is assigned to regulate the generator rotor winding.

Art Unit: 2834

Dependent claims 10-17 are considered allowable by their respective dependence on allowed independent claims 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892.
